July 23, 1976

Mr. Robert L. Morris, Chairman, Division Status Subcommittee MCC
413 Sound Beach Ave.
Old Greenwich, CT 06870

Dear Bob,

I am very happy to transmit to you approximately 600 responses to your questionnaire received at National from the 1876 we sent out for MCC to potential members (codes 76 and 77) if/when Division status is achieved. It is heartening, but not entirely surprising to me to note that there is an overwhelming favorable response (I estimate 95+% in the first 3 choices) for the Machine Computation Committee to obtain division status with commitments for membership, active work and support. Very few checked the last 3 negative selections and some were in the neutral fourth.

I thank you for sending me a copy of your draft of the By-Laws for the MMCC (M²C²) Division (Mathematics, Management Sciences, Computers & Controls). Although you did not invite my comment and even though you indicated that you borrowed extensively from other divisions, I want to tell you that I can see that you did a tremendous amount of work in pulling it all together and reshaping it all uniquely in terms of the particulars of the proposed M²C² Division and you are deserving of great thanks for your good results by the whole committee of which I want to give mine first-now!

I'm sure that the committee will be most pleased to hear your report of results and progress when they convene at the Atlantic City National Meeting at 9:00 a.m. on Monday, August 30.
