

COMPUTING & SYSTEMS TECHNOLOGY DIVISION

AIChE

TO: Members; Formation Committee, MCC, NPC areas 1d, 2e, 5c
FROM: R. L. Morris, Chairman Pro Tem C&ST Division
SUBJECT: Division Membership and First Election

Much of what is presented in this letter is terribly late because my travel schedule and those of the 2 or 3 people who have tried to help expedite the work involved in starting our new division were so bad that we never got any work done. I apologize for the delays but I'm afraid I can do little more.

There will be no division meeting in New York although a Machine Computation Committee (MCC) meeting scheduled for Monday afternoon will be used to conduct the business of the temporary executive committee. All of you are welcome at that meeting if your schedule permits.

Attached is a ballot containing the candidates selected by the Nominating Committee at Denver who have agreed to serve if elected. The decision to have the Chairman and First Vice Chairman run unopposed was made to insure the continuity of existing programs. It is consistent with Division By-Laws and practice within the Institute. If you want to join the division please cast a ballot.

Since only dues paying members may vote, it will be necessary to enclose a \$3.00 dues payment with the ballot when you return it unless you are one of the 15 members who has already paid dues. Ballots should be postmarked no later than December 15, 1977.

The following temporary appointments have been made to key Chairmanships to insure coordination of early activities:

Programming: Fred C. Stults
Publications: Sigmund J. Lawrence
Membership: Robert E. Harris

Bob Lackmeyer, treasurer of MCC is acting division treasurer.

Membership dues for the Division will be solicited (but not billed) in the annual Institute dues notice. There is no need to pay your dues twice (although donations will be gratefully accepted) but dues must be paid if your ballot is to count.
