November 21, 1977

Mr. A. S. West
Rohm and Haas Company
Research Laboratories
Spring House, Pennsylvania 19477

Dear Mr. West:

The Computing and Systems Technology Division is currently conducting its first election. Mr. Vern Sterba, formerly chairman of the Machine Computation Committee is running unopposed for the office of division chairman (consistent with division by-laws).

Since Vern will be the de facto chairman at the end of the election he will submit the required statement of 1978 objectives for the division to you by mid - December. These objectives were reviewed and approved in New York.

The division formation committee will submit its final report to Council upon completion of the election.

Very truly yours,

Robert L. Morris
Chairman Pro Tem
C & ST Division
